## WORK EXPERIENCE

---

### Web Developer

Jan – May 2024

Ingraph Ltd. – Calgary, AB

- Developed a printing e-commerce website from scratch using Next.js, React.js, and TypeScript, integrating features such as user authentication with NextAuth.js, and payment processing with Stripe.
- Implemented a responsive and visually appealing UI utilizing Tailwind CSS and Chakra-UI, ensuring a seamless user experience across different devices and screen sizes.
- Utilized Three.js to enable users to customize 3D models of products, allowing for interactive and personalized shopping experiences.
- Integrated Prisma ORM with MySQL database to manage and store user data, product information, and order history efficiently and securely.

### FC Associate I

2021 – 2023

Amazon Delivery Station – Calgary, AB

- Demonstrated exceptional attention to detail for damaging, missing labels, or discrepancies, preventing delivery errors.
- Maintained a well-organized and clean workspace, contributing to a safe and productive work environment.
